in some cases of alarm and fear. Except what they had seen at Fort Laramie and Fort Kearny, they knew nothing of the white man's lodges; but their greatest astonishment was in seeing a steamboat, and their fears were excessive upon going upon it. They called it the fire horse, and it was a considerable time before they could reconcile themselves to "the noise and confusion" of blowing off steam, the steam whistle, ringing the bell, &c. At first the motion of the boat made some of them sick, but they are among the most intelligent of their respective intes, and in time became reconciled and quieted. They were highly delighted when they saw the "fre borse's brother (another steamboat) with a papose "(the yaw) intiched to his tail, ascending the river. Fires-Man Drowned-Verdict of the Coroner's Jury in McGarvan's Case-Curious Law Case-The Markets, Ac. Correspondence of The N. Y. Tribune.

PHILADELPHIA, Wednesday, Oct. 29, 1851.

The storing room of M. & J. McColgan, manufacturers of horse collars, was partially destroyed by fire this morning. Several stores in the same building (the Shakspere) were much damaged

by water.

Mary Sims and David Pennington, colored, were arrested yesterday on a charge of larceny.

Joel Porter, of Wilmington, Del, was accidentally drowned in the Delaware at Spruce-st. wharf, last

rening.

The funeral of Henry McGary, the unfortunate young man who was brutally murdered in Moyamensing, on Sunday evening, takes place to-morrow morning. The Coroner's Jury in the case have returned their verdict, which charges the commission of the murder upon James McFadden, and Robert Louden. McFadden is in Moyamensing Prison, and Louden is still at large. It is probable that he has exemed to your city.

The Permanent Bridge accross the Schuylkill aceidentally took fire last night, but was soon extin

guished.

The Coroner's Jury, in the case of Mr. Carroll, who ded from the effect of mairies received on Sunday night last, by being pushed violently from a step, have returned their verdict, which attributes his death to accident, thereby exculpating every person from blame.

Dr. Thomas Oliver Goldsmith, Coroner elect of Philadelphia, entered upon the discharge of his official duties vesteriay.

ficial duties yesterday.

The case of Rowland rs. Coleman and wife, the opening of which I sent you yesterday, is still under that in the Court of Common Pleas. The examina-tion to-day was confined chiefly to the pecuntary condition of John Rowland, when he arrived in this condition of John Rowland, when he arrived in this gountry, for the purpose of showing that he must necessarily have begun business with his brother's capital. It came out in evidence, that in the Jewish Synagogue the male members of a family are the called by their Christian names, but are known, where the surmame is Abraham, and the father's surname Issac—as Abraham the son of Issac. The explanation given for this was, that in Europe there planation given for this was, that in Europe there were agreat many families whose male members were named Abraham Hart, Isaac Abrahams, &c. During the wars of Napoleon, when conscription was rife all over Europe, for the purpose of faling up the armies, much confusion was occasioned by the similarity of names. A law was therefore passed, that each of the numerous families whose names were alike, should append something to their name so as to make them distinctive. Hence the system adopted by the Synazogue is this country, and hence the reason for Mr. Peltier S. Rowland being known in the Synazogue as Peltier S. Solomons, or Peltier, the son of Solomon.

Solomon.

The evidence for the plaintiff closed about 12 o'clock, and the defense was opened by J. McIntyre for the defendants, by denying any indebtedness of John Rowland, at the time of his death, to Peltier John Rowland, at the time of his death, to Penter as a member of the Society, nor as an executor of his brother's estate, could he claim to be a creditor. He alleged that at the time of the marriage of John Rowland with Isabella Nathans, his bother, Peltier S. Rowland, held out to her and her friends the idea that John was worth \$17,000, and in consequence of this representation the marriage took place. He that John was worth \$17,000, and in consequence of his representation the marriage took place. He could not now set up the pica that John was bankrupt—his property not being sufficient to pay his debts. He argued that if it could be shown that Peitter agreed to perform the ceremony of "taking off the shoe," and thereby caused the lady, at considerable expense, to send to Baltimore for a learned Rabbin to perform the ceremony, and then in the Jewish sanctuary, when the service was about to be performed, refused to give the re-lease, unless he was itherated from all pecuniary claims, that liberation was invalid, and he cannot lease, unless he was liberated from all pecuniary claims, that liberation was invalid, and he cannot now set it up in bar of the chaim. That it was excessively inequitable, as he had the power of consigning her to perpetual cetibacy, by refusing to give the release for her marriage, or if she married without it, to be considered, by the liberow laws, which govern this ceremony, as living in a state of concubinage. That the demand of a release of claims, under the circumstances in which she was placed, was unconscionable, and ought not to receive the sanction of a Jury. Mr. Melntyre is still addressing the large in his opening for the defense.

"Brooks's speech, in its appeals to all that is sel-sh and base in human nature, was infamous. He attempted, especially, to stimulate the hatred of the Irish and Germans against the colored man, and induled in the usual indecent slang about amalgamation. His ethics were as rotten as any Jesuit could desire, and his atheism was as rampant as the fool's, who 'saith in his heart there is no God."

"The great body of our citizens—the working, intelligent masses—are infestibly hostile to the Fugitive Slave Law, and openly rejoice in the escape of Jerry, whatever they may think of the manner of that escape. On that point there are some differences of opinion—but, generally, none other than a passive resistance to the law is recommended." "Brooks's speech, in its appeals to all that is sel-

CITY ITEMS.

The weather last night was rainy and warm, a kind of muggy and disagreeable night which made indoor and outdoor equally uncomfortable. The rain commenced at 8 o'clock, and continued with scarcely an interval up to midnight. It was mostly a moderate drizzle, but at one time there was a perfect deluge for about a quarter of an hour.

THE OPERA. - To-day is the last day in which the old subscribers to the Opera will have right to apply for their old seats for the November season : afterwards "the first come first served. Preparations for the opening, with Norma, go on well, and there is no doubt that the impresario will surprise and gratify his thousands of friends on that

Concerning the Grand Opera-House, things look well. Max has signed a contract for the land, corner of Astor-place and Fourth-avenue, and the subscription list shows an aggregate of more than a hundred thousand dollars in aid of the project.

POSTPONED .- We learn that the award of Medals to the crews of the Advance and Rescue. which was to have taken place to-day on board the U.S. ship Ohio, has been postponed until further notice.

Army were among the arrivals at the Irving House yesterday.

ILLNESS OF CORONER GEER .- Dr. Geer vesterday experienced an attack of paralysis, and now lies with one leg and an arm so paralyzed as to be perfectly useless.

Nor These.-The people of the Tract House state that no person was hurt there, as reported in our paper yesterday.

CATHERINE HAVES has concluded her engagements in Boston, and is returning to this On Tuesday evening she gave a concert in Springfield. On Wednesday evening in Hartford This evening she appears in New-Haven. She wil probably arrive in this city on Saturday. week she will give three concerts in Tripler Hall on Monday, Wednesday and Friday evenings. The Father Mathew benefit will be a gala evening. She will then visit Albany, and may go as far west as Buffalo, before proceeding to Philadelphia and the cities South. Her whole series of concerts in Boston was a succession of triumphs. The press was unanimous in her praise.

Signors Frazoni's bust of Kossuth is completed, and as we understand, is for sale in the nusic and print stores. We are indebted to him for the present of a copy. The bust of Mazzini he will soon have finished. The two are of the same size and intended to go together.

Madame Biscaccianti gave a delightful private Soirce at the Astor House on Tuesday night, at which a small party of her friends and admirers were present. During the evening she sang morceaux from many of the best Operas, and fully proved that her tour in Europe has added much to the force and style of her singing, of which the public will have an opportunity of judging in a few days. Three or four well-known musicians assisted Mad. B. during the evening, and Dodworth's Band wound up the affair by a delightful serenade to the American Prima Donna, which she acknowledged in a graceful manner.

DARING ATTEMPT TO ROB THE PHENIX

BANK, - Last night a party of burghers under chalter of the storm and darkness, made a bold but unsucessful attempt to break into the Phenix Bank, in Wall-st. It seems that the burglars had got upon the roofs and entered through a scuttle the building No. 43 Wall-st., occupied by Weeks, Kelly & Co., and one of them had begun to bore through the floor in order to descend into the lower story, whence it is presumed they meant to dig through the walls into the Bank, which is in the next building, No. 45. The affair was well planned, and gave every hope of suc cess to the rogues, when their plans were all upset by the sudden appearance of officer Watson, of the First Ward, who captured the only person in sight and marched him to the Station-house, where he gave the name of Bower Rice. He is German, and states that he was in the employ of other persons, who were on the roof, and who probably made their escape, as they had not been caught up to a late hour last night. When Rice was caught he was very busily engaged in boring holes in the floor for the purpose of removing a piece large enough to admit a man; he had bored two sides, in all eight or ten holes. He had an auger, an ax, a rope, saw, chisels, &c., &c., in fact all the tools necessary for a successful operation. Officer Watson is entitled to great credit for thus frustrating this daring robbery and saving to the Bank very probably a large amount of money. As soon as the affair was known, Capt Silvey proceeded with a large force of men to Wall-st, and vicinity to arrest if possible the other parties, but we have not learned that any further arrests were made. The night was especial ly favorable for burglaries, and it is quite probable that other and more successful attempts were made in more exposed localities. The immense amount of gold now in Wall-st. renders extraordinary pre-cautions necessary in that quarter.

PUBLIC COLORED SCHOOL EXAMINATION -The Semi-Annual Examination of Colored Public School No. 2, in Laurens-st. near Grand, was held yesterday by the Board of Trustees. In the Primary Department there were 162 pupils in charge of Miss Sarah Ennals, Principal, and Misses C. Spencer and C. Harleg, Assistants. The fifth class only was examined, and the pupils acquitted themselves very well. There are now far more scholars in this school, which is a pleasant one, with excellent teachers and accommodations. In the Girls' department, there were 83 pupils under direction of Miss Fanny Tompkins, principally assisted by Misses Caroline Hamilton and N. Thompson. The lowest classes we examined, and the Geography classes were very superior. The other exercises were fair. Drawing and Painting class, taught by Miss Oram, was especially worthy of note, among the best specimens, a flower piece in water colors, by Miss Cynthia Moore, and one by Miss E. Spencer, were very fine, and indicated decided artistic ability. A specimen of drawing that struck our eye, was large dog in crayon, bearing the name of Miss Mary Tilghman. Phis department, take it all in all, was equal to any of the white schools.

In the Boys' department, Ransom F. Wake. Principal, and John J. Zuille, Assistant, there were 65 pupils present. The exercises here were very fair. One thing we would remark upon is the anathy that seems to rest upon the minds of too many of our colored citizens in relation to keeping their children at school. This school would easily accommodate double the number of pupils, and there are four times that number of children in the streets that ought to be in school.

There is a Girls' and Boys' Evening School held in the same building, at which there are in atten-dance over 200 pupils, which is an increase on the number of last year.

Figg. - This morning, at an early hour, a fire broke out in a stable in Cherry-st., near Governeur, occasioned by a lamp which had been left there burning accidentally. It was extinguished before much damage occurred.

Accident - A poor woman named Sarah Kipp, while in the act of getting out of a stage at the conier of Fourth st and Broadway, made a mis-step and fell to the pavement, breaking an arm. Dr. Griswold bound up the limb and she was conveyed to the New-York Hospital.

MALICIOUS MISCHIEF. - A man of re-MALICIOUS MISCHIEF.—A man of respectable appearance, named John Murphy, was yesterday arrested by officer Tinsdale, of the Fifteenth
Ward, charged with maliciously breaking the windows and cutting the carriage belonging to Charles
Sherwood, of Spring-st. It appears that Murphy had
hired and used the carriage for about four hours, and hired and used the carriage for on returning it to its owner he not only refused to pay for the use of it, but returned it defaced in the manner above stated. He was taken before Justice

ARREST FOR GRAND LARCENY -William Lambert, first mate of the ship Robert Kelly, E. W. Barstone, master, was yesterday arrested by officer Burhson, of the Third Ward, charged with stealing from the ship, during the absence of the Captain eight bbis. Oatmeal, valued at \$48, which he sold to Petrick Kinsley, a speculator in old rope, &c., doing business at No. 18 Morris st., for \$16, which doing business at No. 18 Morris st., for \$50, which money he appropriated to his own use. The speculator was also arrested, charged with purchasing the meal knowing it to be stolen property. He was held to bail to answer the charge, and Lambert was committed to prison by Justice Lothrop for examination.

A BURGLAR' CAUGHT IN THE ACT .-A Burglar\* Caught in the Act.—
About 4 o'clock yesterday morning the grocery of
Matthias J. Helek, corner of Fortieth-st, and Eighthav., was broken into by a fellow who gave his name
as John Smith, who gained admission to the store by
prying open one of the rear windows with a chisel.
The family of Mr. Helek slept above the store, and
the clerk, on hearing a noise below, went into the
store, where he found Smith at the money drawer,
with its contents transferred to his pockets. He endeavored to arrest him, but Smith made a desperate
effort to get away, and was on the point of doing so,
when Mr. Ii. came to the assistance of his clerk and
succeeded in detaining the follow until the arrival of
officer Post of the XIXth Ward, who took him into
custody with the contents of the money drawer, a custody with the contents of the money drawer, a key and a chisel in his possession. He was commit-ted to prison for trial by Justice McGrath.

ROBBERY .- A man named Joseph Sibley Robbery.—A man named Joseph Sibley was arrested on Tuesday night, charged with robing Thomas Hopps, of White Plains, of \$50. It seems the two men were in company together, at a tate hour on Tuesday night, in Church-st., when Hopps, who was intoxicated and noisy, was taken into the Fifth Ward Station-House, when he told Capt Carpenter that he had considerable money on his person, which he wished could be taken care of for the night, but on feeling in his pockets for the money he found it had been stolen. The officers who brought him in had seen Sibley in company with him, and suspecting him of having stolen it, they took him into custody, and found the stolen money, \$50 in all, in his possession. He was taken money, \$50 in all, in his possession. He was t before Justice Lothrop, and committed for trial.

ARREST OF A POCKET-BOOK DROPPER .-A well-known pocket-book dropper, named George Eldridge, was yesterday morning observed by Mr. Daniel Martine, at the corner of Dey and West-sts., in the act of practicing his base profession upon an unsuspecting countryman. Mr. M. stepped up to the man, and, calling him aside, acquainted him with the character of the man with whom he was trainer. Eldridge did not account relish this inwith the character of the man with whom he was cealing. Eldridge did not appear to relish this in-terference, and at once assaulted Mr. Martine, and struck him violently several times. Mr. M. preferred a complaint against him, and he was soon in the cus-tody of a police officer, who took him before the Mayor. He was held to bail in \$500 to answer the charge of assault.

RESCUED. -Officers Killam and McCarty of the First Ward, yesterday rescue 1 an unkirman from drowning at Pier No. 7 North River.

Suspicion of GRAND LARCENY .- A female named Frances Hausman was yesterday arrested by Constable Josephs, of the Fourth Ward, on suspicion of stealing \$75 in gold coin, and a diamond ring, the property of Susan Coltor, residing In West Broadway. It seems the parties, at the time of the larceny, occupied rooms in the same building, and it is alleged that the accused, during the absence of Mrs. Coltor, stole the money from her room. On ar is alleged that the accused, during the absence of Mrs. Coltor, stole the money from her room. The father, Antome F. Rosat, being a member of the Jewish persuasion objects to his daughter being educated in a Catholic institution, and claims, on that account, its care and custody. Mr. Joachemssen appeared on his behalf and Mr. Chase opposed. The hearing was adjourned to 5th Nov. The child having been brought up once before from the Seminary, the Superior objected to its being returned there, and she remains in care of her mother.

A young man was also brought up for discharge from enlistment, but owing to the absence of the Judge, before whom the writ was got out, the case was not acted upon.

Thomas McGrath vs. Charles Boutelle.—The plaintiff was second mate of the ship Conqueror. The plaintiff shipped in New-York in May last on a voyage from Liverpool, and thence to New-York, at \$25 a month. The Captain, while the vessel was at Liverpool, went to London, and left this vessel in charge of the first mate. A difficulty appeared between the mate and plaintiff, which resulted in the plaintiff's leaving the vessel and returning to New-York with another. This action is brought to recover wages for the whole. The principal questions in this case are, whether the plaintiff was discharged or not, and if discharged, whether on sufficient cause.

CORONER'S INQUEST.—An inquest was held yesterday upon view of the body of Richard Cock, and the verdict rendered was, that deceased died from the effects of injuries received by the falling of the topmast of the liberty poil, foot of Fultonst. The cause of such failing was the unsoundness of part of a rope which was spliced to another piece attached to the mast. Such unsoundness coulding the discovered by an external examination, and defende in blance attaches to the persons superintending the work.

WEDNESDAY, Oct. 29-P. M.

The Stock market was rather active today, but quite irregular in prices. Erie, at the opening, was 811, 21 P cent. below the closing prices of yesterday. It recovered to 82, then fell off to 811 but afterward became buoyant, and finally at the Second Board closed at 841, an advance of ! P cent. on yesterday. The sales were large, reaching nearly 4,000 skares, a considerable proportion of which was on time. Harlem shows less fluctuation, opening at 67 and closing at 67 -an improvement of r p cent. on yesterday. Norwich was about 55 in the street before the Board, but became afterward in good demand and advanced rapidly to 57], at which closed at the Second Board, being an advance of D cent on vesterday, and 2| from this morning. There are probably more outside speculators in this stock than in any other, excepting Erie. Zinc was heavy, and fell off to \$9 75. Mohawk was in demand at 95, an advance of 1) P cent. Reading re mained at yesterday's price. Canton improved cent. Long Island and Morris were heavy. Erie Securities sold to considerable extent, but at a tri-fing decline. For Governments there was some in-quiry but the market is not firm. Illinois and Indiana stocks have an upward tendency, and are in better demand. Bank stocks continue to improve.

The market for Sterling was firm but quiet. The quotation is 10 a 10; for leading bills. France 5 16, @ 5.131. In Freights there is no marked change

The America, from Boston to-day, took \$150,000 in gold. The current of Coin between this City and the South appears to be moving both ways. The Winfield Scott from New-Orleans, has \$17,000 on board, and the Marion, from Charleston, \$79,500 while \$100,000 was insured, to-day, to go to Mobile from this City. This is the beginning of the shipments which we alluded to some days ago as impending and which will probably reach before the ist of January, three millions of dollars. These shipments, however, will prove an advantage to us. as every dollar added to the coin of the Southern Banks will send at least a pound Sterling of bills here by furnishing increased facilities at the South for the negotiation of Exchange. At New-Orleans Sterling ranges from 64 to 8 P cent., the latter for first-class signatures.

We understand that the Buffalo and State Line Railroad Company have negotiated with Mr. Rufus H. King and a party of capitalists two hundred thousand dollars of the ? P cent. 15 years mortgage bonds of that Company at about 86; P cent.

The interest on the Mortgage Bonds of the Michigan Southern Railroad, due on the 1st Nov., will be paid at the Mechanics' Bank.

The receipts at the Sub-Treasury are \$65,248. Paid. \$211,265. Balance, \$3,162,478. Among the payments was a transfer draft of \$200,000

Money is without change. On call the supply is free and increasing, while the demand for good paper is fair. The Banks are increasing their facilities and generally accommodate their regular dealers. The payments into Bank in the coming month will not be so heavy as during October.

One of the most attractive articles on

exhibition at the late Fair of the American Institute was Mr. J. F. Winslow's Compound Rail. We hear it received the unqualified approbation of parties skilled in judging of such things, and was pronounced a very great improvement over the ordinary ratis in use. The object aimed at in this invention is to produce a rail which shall approximate as nearly as possible to a continuous bar from one end to the other of the road-in our opinion a very great de sideratum in railway construction, and which we think is accomplished by this rail of Mr. Winslow's. To effect this result, the bars are rolled in two sec tions. (longitudinally,) and lapped together so as to break joints in the middle of each, and then united by rivets. When thus placed they form a rail somewhat in appearance like the T pattern, but with this marked difference in principle : in having no cross joints at the end of each bar, but it forms a united and continuous track, thus avoiding those depressions at the joints consequent upon the use of the common rail, dispensing wholly with the use of chains or other fastenings at the joints, and securing a perfectly even rolling surface, over which the trains pass without concussion, insuring very much less wear and tear of rails and machinery while it materially increases the comfort of passengers. It is now thitle more than two years since this rail was first introduced, within which time it has been placed upon the Utica and Schenectady, New-York and Erie, Philadelphia and Reading, Hudson River, Syracuse and Utica, Rochester and Buffalo Railroads, and has received the unqualified commendations of the persons in the management of these Roads .-Other leading Roads have contracted for the rail and are preparing to put it down as soon as obtained.
Specimens of the rail are placed in front of the Merchants' Exchange, Wall-st., where it may be examined by all interested in Railroads—their improvement and progress.

The receipts of the Michigan Central Road promise to be \$200,000 for October.

Increase in 1851 ......\$209,568 82 The demaild is becoming daily more limited for Dry Goods. Domestic Goods are for the most part firm, with light stocks, but Imported Goods have shown a further decline, especially French, though a few articles are scarce and steady, There is no disposition to lay in stock ahead of actual wants. Cotton Yarn is active at 25c. Staple Cotton goods are all dull, but steady. Brown Sheetings and Shirtings are but in slight request. The stock is light and prices firm at from 6; up to 7c Bleached Goods continue in larger stock, though holders are firm, prices having fallen fully to the level of the cost of production, at current rates, of the raw material. Drills are dull but steady at 7/207;c. for browns-the former rate for shipping-and 71c. for bleached, and Sic. for blues. Denims are inactive and prices nominal. Osnaburghs are in fair reques to supply a Southern demand, and prices are steady. Stripes and Ticks are alike inactive and prices unsteady. Printing Cloths, with a light stock, ar steady in price, though the demand continues dull. Prints are yet active, though the demand is abating. Madder Prints are very hight in stock prices are very steady. Ginghams continue unvaried in prices— Lancasters at 101c and Glasgows 11c. The demand for the season is nearly over, but the stock is low Delaines are the most active articles in the market prices are very uniform-Manchesters at 16@19c., and others at 19 a 22c. Some parcels are selling ahead of arrival, the supply being scarcely up to the demand. Cloths are in moderate request, but chiefly for low grades. Cassumeres are brisk of sale for all styles from low to choice, though the former are more plenty and at prices favoring the buyer. Blacks are rather lower. Satinets are duli. Jeans are firmer and in fair demand for the season. Tweeds are dull and drooping. Sheep's greys are in good request and prices of the better qualities are firm. The low and medium qualities are rather heavy. Linseys are dull at 15c.@16c. Flannels are plenty and heavy, except for fine white, which are firm and in demand. Blankets are mactive. Shawls are still in active request. The Bay State Shawls have been especially active at good and steady rates. The auction sales do not present so good a demand as last week, and prices of the goods, mostly French, there sold, have declined. Choice Silks are selling well in private trade, but desirable qualities are scarce. Ribbons have declined. Merinos are not so firm and Cloths, though in some request, are unsteady in prices. The remaining stocks are now pressing the market which, with a lessening demand, rather more favors the buyer , but as soon as those forced sales have taken place, the balance of tocks will be held firmly. British Staple Goods do no offer at auction and are firmer in price. The demand, however, is slight, and if goods were pressed to a sale very low prices would have to be admitted to. But these goods will keep and as the prices are still low, the market is in favor of the prices are still low, the market is in favor or buyers, as the Spring trade will skow a great im provement. In speaking of the failure of the Columbus Insurance Company, The Cincinnati Gazette says "A correspondent at Columbus informs us that the failure is a very bad one, and carries with it several men of business and property in this city. Up to the great St. Louis fire the company was very successful, and the stock was sought for, often above par. It had principally got into hands of men of wealth, and the heavy blow the company received in that dread ful conflagration has never been recovered from To meet the losses and sustain the credit of the fa vorite institution, wealthy stockholders raised means on their individual responsibility to a very large amount, with the hope and expectation that the prosperous business of the company, then widely extended, would in a few years make up all de ficiencies. But the tide continued to run adversely, and in nearly every severe fire whether accidental or the work of incendiaries, the Columbus Insurance Company were sufferers. The crash has come at last, and among the severe losers we hear Mr. Hubbard, Mr. Moody, 'Mr. Graham, Mr. Miner, the estate of Mr. Buttles, Mr. Whitehill, of Columbus, and Mr. Drake, of Xenia, named. The failure is stated at half a million or over. The St. Louis Republican of the 17th says that this company paid losses in that city to the amount of \$150,000.
